

ETCHED GLASS

DOUBLE SIDED

Complementary etching on **both sides of the glass** sheet results in a finished product with **unparalleled depth and character**.

Perfect for applications that require both faces to have a **finished appearance**. The absence of a “back” face allows for **greater flexibility** in your applications. Interior applications that require **maximum brightness and clarity** are the perfect candidate for our double sided etched glass.

PRODUCT

-  Float glass with etching **on both sides**
-  **30+ available patterns**
-  Complete **fabrication services** available

-  • Fingerprint Resistant Etching
-  • Scratch Proof
-  • Recyclable

FINISHING OPTIONS

-  Grinding
-  Tempering
-  Drilling
-  Cutting
-  Edge Grinding
